# Ultimate Meshtec® Security Screen Door and Windows

## What are the needs of the customer?

|                |                                                                                                           |
|----------------|-----------------------------------------------------------------------------------------------------------|
| Security       | How important is keeping your family safe and secure?                                                     |
| Full view      | Do you want the benefits of security without the look of security?                                        |
| Insect Control | How important is keeping unwanted flying insects out of your home while your primary door is open?        |
| Air Flow       | Do you want to allow air to flow through your home while being able to securely lock your window?         |
| Visibility     | Do you want to be able to see through the window screen without compromising the security of your family? |
| Rust           | Are you concerned about having a window screen that may rust?                                             |

| Features                                                      | Benefits                                                                                                                                                 |
|---------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| High tensile strength, woven stainless steel wire mesh screen | <ul style="list-style-type: none"> <li>- Resists forced entry</li> <li>- Protects against insects</li> <li>- Protects against harmful UV rays</li> </ul> |
| Proprietary attachment system (screen to window frame)        | <ul style="list-style-type: none"> <li>- Superior impact resistance</li> </ul>                                                                           |
| Full view window                                              | <ul style="list-style-type: none"> <li>- Ventilation and visibility</li> </ul>                                                                           |
| Heavy-duty aluminum frame with stainless steel screen         | <ul style="list-style-type: none"> <li>- Will never rust</li> </ul>                                                                                      |
| Security snap covers                                          | <ul style="list-style-type: none"> <li>- Hides the screws that secure the door and provide a clean finished look</li> </ul>                              |
